Personality Type Indicator

This questionnaire will give you an indication of your Personality Type. The results may or may not be accurate - only you can decide.

We will evaluate the results in more detail during the next part of the course.

Review each of the following questions and select either answer **a** or **b** for each question. There are no right or wrong answers but choose which is most like you. I know that it depends upon the situation, but try to answer each question as honestly as possible thinking about what is most like you in the majority of circumstances. You won't be able to change your answer once you have answered the question.

Enter a tick for each answer in the column for **a** or **b** in the table above.

Directions for Scoring

1. Add up the number of ticks in each column.
2. Transfer the number in box 1 to box 1 below. Do this for box 2 as well.
3. You have two numbers for boxes 3 to 8. Bring down the first number for each box beneath the second, as indicted by the arrows. Now add all the pairs of numbers and enter the total in the boxes below, so that each box only has one number.

Personality Type Indicator

4. You should now have four pairs of numbers. Circle the letter below the largest number of each pair. If the numbers are equal, then circle neither and put an X below them and circle it.

5. This will give you an indication of your Type using the questionnaire. If you have one or more Xs in your Type, you have indicated that your preference is not very clear from your answers that you gave to the questions. An X can show up in any of the four pairs: E or I, S or N, T or F, and J or P.

6. Work through the course to get a clearer idea of your preferences and what they mean. If you have one or more Xs in your Type, you may get more clarity about these preferences as you work through the rest of the course.
